SUMMARY

I am a dedicated Web Developer with a strong foundation in front-end technologies (HTML, CSS, JavaScript, TypeScript, React.js, Tailwind CSS, Bootstrap, jQuery) and back-end development using PHP and SQL. I specialize in building responsive, interactive, and user-friendly web applications with a focus on performance and design. Alongside my development expertise, I have one year of experience as a Beforward Car Selling Agent, where I gained valuable insight into the automotive and auction industry, enhancing my ability to understand client needs and deliver practical, results-driven digital solutions. I am eager to bring both my technical and professional experience to create impactful and innovative web projects.
